Everything you expect from Hyundai

- More standard features
- Proven quality
- Innovative technology
- Industry-leading warranty
- Excellent parts availability
- Strong dealer support

The 20.3 cm (8 in), touchscreen automotive-quality monitor with haptic remote control provides easy access to almost all systems and functions.

The AAVM option combines images from four external cameras to provide 360° virtual operating view.

HYUNDAI HW210

For versatility in working in both on- and off-road applications, the Hyundai HW210 gets the job done with a combination of power, productivity and precision. The HW210 delivers improved performance, increased fuel efficiency, an enhanced cab and added safety features.

RESPONSIVE HYDRAULICS

Hyundai HW wheeled excavators feature computer-aided power optimization based on load demand, and Eco Breaker mode for selectable pump flow and improved fuel consumption when working with Hyundai hydraulic breakers and many other attachments. The HW series' three-stage power mode ensures optimum performance for working with heavy or light loads.

BETTER FUEL ECONOMY

New Tier 4 Final engine technologies, a more efficient vertically stacked cooling design, efficient electronic fan clutch, plus many hydraulic system innovations contribute to an overall fuel efficiency improvement of up to 10 percent compared with previous models.

ALL-AROUND VIEWING BOOSTS SAFETY

Hyundai's exclusive AAVM – or All-Around View Monitoring – option provides a 360° virtual operating view. The AAVM system, which displays on an 20.3 cm (8 in) cluster-monitor in the operator's cab, helps make the new Hyundai HW series among the safest excavators to operate on any jobsite in North America.

OPERATOR COMFORT AND SAFETY

With a large cab built for low noise and low vibration, the Hyundai HW210 interior environment provides greater comfort and safety for operators. Features include Bluetooth audio system and Miracast wireless functionality for viewing a mobile device screen on the monitor.

Key features:

- Cummins QSB6.7 Tier 4 Final engine
- Rear camera
- AAVM option
- Touchscreen color LCD monitor
- Load-sensing hydraulic system
- Programmable user settings and attachment settings
- Variable operating modes (P-S-E)
- Auto cruise control
- Creep/travel speed
- Forward/reverse travel pedal
- Hi-Mate remote management system (3 years)
- 3-year, 3,000-hour standard warranty
- 5-year, 10,000-hour structural warranty

Key specifications:

- Operating weight: 21 200 kg (46,740 lb)
- Net power: 136 kW (183 hp)
- Maximum dig depth: 6 380 mm (20' 11")
- Bucket digging force: 14 770 kgf (32,550 lbf)
- Arm crowd force: 11 290 kgf (24,900 lbf)
